WORK HISTORY

Web Developer, 01/2015 to Current
Glynn Web Solutions – Miami, FL
Provided full cycle design and development services to clients in industries that include legal, performing arts and non profit. Programed as part of a team translating PDF's into working web pages. In process of developing a mobile travel app.

Designer, 06/2004 to 12/2014
Independent Design Professional – Boston, MA
As an independent design professional I worked both on personal projects and on a contract basis for several large hospitality companies. My personal projects included transforming properties in Boston's South End, Dorchester and Jamaica Plain neighborhoods into sought after residences meeting the needs of modern Boston buyers. Some of my professional clients included Ian Schrager Hotels, Morgans Hotel Group and the Light Group.

Operations Manager, 01/1997 to 01/2003
New England Financial | MetLife – Boston, MA
Responsible for supervising eight internal customer support and administrative staff members, in addition to several dedicated employees at outside firms. Implemented improved operational systems and customer support processes, in addition to overseeing planning, and annual budget.
